DECORATIVE CEILINGS

Intricate details from the late 19th Century original metal ceilings have been duplicated in our historic collection. Twelve traditional patterns capture the craftsmanship found in mansions and fine residences of the Gilded Age.

Backsplash

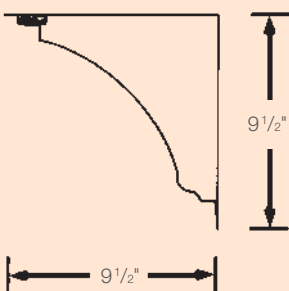

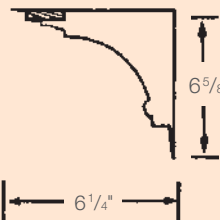

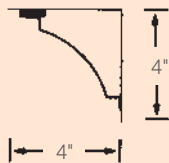

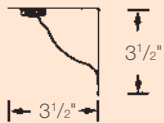

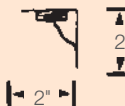

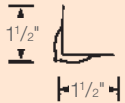

Not to be relegated to the ceiling alone, Metallaire™ can be creatively integrated into a variety of decorating schemes. It is not only beautiful in detail and form but functional as well when used as a backsplash or on an entire wall. Imagination is the only limitation when it comes to designing with Metallaire.

Choosing a Cornice

A cornice is the finishing detail. Like a frame around a masterpiece, a cornice choice can complement and subtly accentuate the exquisite detail of your Metallaire ceiling. Or choose a cornice that makes a bold statement in and of itself.
