

Vertical Grain and Doug Fir
~ The Perfect Compliment to Fir Doors — Complete the Picture ~

EL & EL Wood Products Corp.

Millwork that creates distinction.™

Vertical Grain and Doug Fir

Vertical Grain Douglas Fir (denoted by a VG in the part number) is available for all casing, base, door stop, astragals and S4S mouldings. VG Fir has beautiful up and down (vertical) grains.

Handrails and Full Round are made of mixed grain Douglas Fir, denoted by no letter in the beginning of the part #. Mixed grain Douglas Fir will include some vertical grains, but will also have swirl in the grain.

Douglas Fir, considered part of the softwood family, has long been used as a closet pole because of its extreme strength. VG or Douglas Fir can be painted or stained beautifully, but extra sanding may be necessary.
